WORK EXPERIENCE

Copart | Product Manager | Dallas, TX | Mar 2023 - Present

- **Directed** cross-functional development with a 15-member team to launch Guidewire integrations for 20 carriers, tracking location inventory to scale capacity by 100,000+ vehicle lots quarterly.
- **Formulated** multi-quarter roadmaps and product specifications for cross-border conversions, defining KPIs and acceptance criteria to align field operations with real-world lot pricing.
- **Engineered** an internal developer platform assistant, cutting doc search time from 1 week to 2 days while achieving 100% adoption and feature utilization across engineering.
- **Pioneered** automated data-sharing controls across the product lifecycle, eliminating 5+ hours daily of manual effort and yielding \$700,000 in annual operational cost savings for the business.
- **Navigated** cross-functional stakeholder alignments across MEA, Europe, and UK markets, conducting user research and usability testing to elevate customer satisfaction from 78% to 91%.

Cipla Ltd. | Business Analyst | India | Nov 2019 - Nov 2021

- **Spearheaded** an operational feasibility study to transition facility sanitization in-house, analyzing vendor management workflows to reclaim \$400,000 in annual external vendor expenditure.
- **Engineered** automated performance dashboards with BI teams, cutting monthly reporting from 25 to 10 hours while establishing KPIs to enhance executive visibility across international sites.
- **Evaluated** market trends and regional performance data across underperforming territories to formulate strategic resource reallocations, successfully boosting regional revenue by 30%.
- **Launched** a centralized analytics platform across regional teams, unifying multi-source location data streams to accelerate decision speed by 40% and save 15+ hours monthly in reconciliation.
- **Standardized** platform data documentation and reporting frameworks across regional sales and BI teams, improving cross-departmental alignment and reducing data errors by 20%.
