SUMMARY

Marketplace-focused Product Manager with 4+ years driving platform growth, conversion optimization, and enterprise integrations across multi-million-dollar transaction systems. Known for translating ambiguous problems into shipped features — from A/B-tested UX improvements to international market expansions. Hands-on with AI/LLM prototyping, SQL, and data-driven experimentation.

PROFESSIONAL EXPERIENCE

Copart

Product Manager

Mar 2023 - Present

Dallas, TX

- Addressed declining buyer engagement in auction flows, increasing conversion by 15% and generating \$2M+ incremental revenue by leading product discovery and **launching new marketplace features validated through A/B-tested UX improvements**
- **Managed the end-to-end product lifecycle for 25+ marketplace features**, consistently shipping high-impact features on time by prioritizing roadmap initiatives, balancing engineering capacity, and aligning stakeholders across an Agile development environment
- Expanded platform to 5 international markets (**UK, Oman, Bahrain, Spain, Finland**), driving **10%** of total GMV/revenue — coordinating regulatory alignment and localized feature launches across cross-functional teams
- Cut ad-hoc reporting requests by 40% and improved decision turnaround time by building a self-serve analytics platform and KPI framework used by cross-functional stakeholders
- Reduced enterprise insurer onboarding time by leading end-to-end **Guidewire ClaimCenter integration** — from PRD authoring to production launch — enabling faster partner activation at scale
- Influenced multi-quarter product investment decisions by analyzing **product metrics, experimentation insights, and customer behavior data**, presenting findings to senior leadership to guide roadmap prioritization

Cipla Ltd.

Business Analyst (Product & Analytics)

Nov 2019 - Nov 2021

Mumbai, IN

- **Increased targeted medicine sales by 40% within six months** by identifying underperforming territories and developing KPI-driven dashboards that enabled leadership to make data-informed product and sales decisions
- Partnered with leadership across **100+ regional offices** to define product and **sales KPIs**, designing dashboards that directly informed **go-to-market** decisions and territory prioritization
- **Reduced operational sanitization costs by \$1.2M** by identifying inefficiencies through data analysis and collaborating with operations stakeholders to redesign workflow processes
- **Improved marketing campaign measurement accuracy by 20%** by standardizing KPIs, implementing structured reporting frameworks, and coordinating cross-functional alignment between marketing, analytics, and sales teams
- Drove **0-to-1** modernization of enterprise reporting infrastructure, cutting data latency from **24hrs** to near real-time and enabling faster product and ops decisions for business stakeholders

PROJECTS

GitHub Repository AI Chatbot | <https://github.com/prithvi1811/github-repo-ai-chatbot>

Personal Project

- Built an AI chatbot that indexes GitHub repositories and answers questions about codebases using Retrieval Augmented Generation (RAG)
- Integrated a local LLM (Llama3 via Ollama) to generate explanations of repository architecture and code logic
- Developed a Streamlit UI enabling users to index repositories and interactively query codebases

SKILLS

Product Strategy | Roadmapping | A/B Testing & Experimentation | Marketplace Optimization | Enterprise Integrations | Cross-Functional Leadership | KPI & Metrics Design

AI & Machine Learning: LLMs | Retrieval Augmented Generation (RAG) | Vector Databases | LangChain | Embeddings | AI Product Prototyping

Technical Fluency: SQL | Python | Snowflake | AWS | Guidewire

EDUCATION

University of Texas at Dallas, TX | *Master of Science, Business Analytics*

Jan 2022 - Dec 2023

Manipal University Jaipur, India | *Bachelor of Technology, Civil Engineering*

Apr 2015 - Jul 2019
